[The Half Life of Molly Pierce.epub](#)

A taut and visceral page-turner about one girl's unreliable memory, reminiscent of the film *Memento*. For all of her seventeen years, Molly feels like she's missed bits and pieces of her life. Her memory is perforated with holes and gaps. But then a horrible accident changes everything. Now she's starting to remember her own disturbing secrets. And bit by bit, Molly uncovers the separate life she seems to have led--and the love that she can't let go. Both an intricately woven psychological mystery and a profound coming of age story, *The Half Life of Molly Pierce* is the first novel from a talented young author that Teenreads.com gave "5 out of 5 bright, beautiful stars."
